OBJECTIVE

Ambitious front-end developer with hands-on experience in React.js, aiming to secure a position where I can leverage my skills in building responsive and user-friendly web applications in a dynamic team.

WORK EXPERIENCE

Penstack Solutions Pvt Ltd   Bengaluru, India

Software & Design Engineer   (08/2023 - Present)
- Working in the frontend team developing a SaaS product using React.
- Developed and deployed responsive web applications using React.js, Bootstrap, HTML, and Bootstrap CSS, focusing on creating dynamic and visually appealing user interfaces.
- Explored and implemented new technologies and libraries such as react-table and recharts to stay updated with industry trends, enhancing the functionality and efficiency of the projects.
- Created and optimised reusable components, enhancing code reusability, consistency, and maintainability
- Integrated RESTful APIs to fetch and display data.

Software and Design Consultant   (05/2023 - 07/2023)
- Wrote clean, maintainable HTML and CSS code.
- Participated in code reviews and peer programming sessions to learn and adopt best practices for writing clean, maintainable code.
- Utilised Git for version control, collaborating with team members and ensuring smooth workflow.

Boat Lifestyle   Bengaluru, India

Software Engineer I , R&D   (12/2020 - 02/2021)
- Designed and developed screens for Boat watch faces by utilising Figma.
- Actively participated in discussions on new product Ideas, designs and feasibility study.
- Customization of Airoha SDK (software development kit).

Software Consultant, R&D   (07/2020 - 11/2020)
- Worked on bluetooth log system software development for TWS devices.
- Developed software for Battery management control system and Host MCU coding.
- Integration, tested executables, module documentation.
- Contributed to SDLC and worked in agile methodologies.
